A revolutionary
clinical trial solution
to measure all others.

Pharmaceutical and biotech companies rely on contract research organizations (CROs) to help them manage many components of their clinical trials. As a CRO, you experience the same deployment challenges as the sponsors you serve, such as: establishing studies efficiently, optimizing site enrollment, ensuring timely payments, and tracking performance. Furthermore, you have to manage multiple studies with multiple companies while training your own workforce as well as the investigator sites.

The BioClinica Certified Partner (BCP) Program is designed to help you meet these challenges by leveraging our focus and the strength of our software and services for your studies and sponsors. BCPs benefit from BioClinica's Imaging and EDC experience in over 2000 trials at more than 11,000 sites across 83 countries.

BioClinica offers a unique partnership opportunity. Become certified. Then market your services with the ability to cross sell EDC and Imaging Core Lab Services with the BioClinica team. Call our specialists to find out more.

2,000 Clinical Trials • International Clinical Trials • 11,000+ Site Managed • 80+Countries • Global • 27/4 Support • Site Training • IVR Quality Control • Best-of-breed • Cardiology • Musculoskeletal • Osteoporosis • Osteoarthritis • Rheumatoid Arthritis • Oncology • Agents • Clinical Trial Forecasting • Simulation • Buffer Stock Optimization • Clinical Trial Management • Imaging Core Lab • Therapeutic Expertise • Electronic Data Capture • Certified Radiologist • Image Quality Control • Angiography • Phase I-IV • Clinical Data Management • Image Management • CTMS Solutions • Innovative Technologies • Parameter Driven IWR • Global Delivery • 21 CFR Part 11 Compliant • Integrated Data Management • Clinical Trial Data Analysis • Electronic Data Management • Sophisticated Edit Checks • Verification • Protocol Design • Image Identification • Data Management • Expert Readers • Integrated Lab Data • CRO Partnerships • Predictable Pricing • Electronic Trial Experience • Supply Chain • Patient Diaries • ePRO • Patient Reported Outcomes • Biomarkers • IVR/IWR • Parameter Driven IWR • EDC Integration

BIOCLINICA®

Global clinical trial solutions. Real-world results.

BIOCLINICA®

Certified Partnership Benefits

MINIMAL CONTRACT OR PURCHASE REQUIRED

No up front expense is required. Bioclinica will invest in your team and in your success.

DEFINED CONTACTS AND SALES PROCESS

Partners will be a part of the Bioclinica sales team and will have sales support as though they were a Bioclinica team member. We have dedicated personnel to help in proposal formation and sales presentations. We will also promote our partners into our customers and opportunities when appropriate.

FIXED PRICE MODEL

Bioclinica's transparent, fixed price model, eliminates the guesswork out of EDC. Budgets are predictable and service is reliable. There will be no need to ask sponsors for change orders.

EFFICIENCY

Bioclinica offers to take the burden of EDC and deployment away from partners. We have fully trained study build and deployment teams that can turn around studies in a timely fashion.

JOINT MARKETING

BCPs will have branded collateral material for tradeshow and sales opportunities. BCPs will also have space on the Bioclinica website that will describe their therapeutic expertise and region and have a direct link to their website.

ENHANCED OFFERING WITH CENTRAL IMAGING LABS

BCPs will easily expand their service offering in having the ability to include central imaging labs in their service offering.

REAL TIME REPORTING

Partner service offerings are tremendously enhanced with real time data listings and metrics reports. These can even be automated to go straight to the sponsor.
